## EMERGENCY MANAGEMENT PROTOCOL

### \*VESSEL OBSERVED FLOODING WHILE MOORED AT DOCK IN PENDER HARBOUR\*

Action Item	Description	Contact
1	<p>Locate a 120V submersible water pump or a submersible trash pump with a minimum 50mm (2") discharge hose and minimum 190 litre (50 gallons) per minute pumping discharge capacity. If significant water is observed, larger is better.</p> <p>You can use 120V shore power, ships generator or a portable generator to power the pump.</p> <p>Stabilize the vessel by maintaining greater discharge than incoming volumes of water.</p>	<p><b>Coast Equipment Rentals</b> 604-883-2747</p> <p><b>Garden Bay Marine Services</b> 604-883-2722</p> 
2	<p>Call Madeira Marine or Liaison Marine Services. Advise them that your hull has been breached and you need an emergency haul-out. If you are unable to equally discharge the incoming volumes of water, let them know that you need immediate assistance to keep her afloat.</p>	<p><b>Madeira Marine</b> 604-883-2266</p> <p><b>Bob Fielding</b> 604-740-2400</p>
3	<p>If the main engine runs, power the vessel for haul-out only after arrangements have been made. Power the submersible pump with ships generator or portable.</p>	
4	<p>If you need assistance due to not being able to run the vessel call C-Tow, or Garden Bay Marine Services for assistance. Keep track of materials and labour items for submitting proof of expenses to your insurance broker.</p>	<p><b>C-Tow</b> 888-419-2869</p> <p><b>Garden Bay Marine Services</b> 604-883-2722</p>
5	<p>Make arrangements to have the necessary repairs done at the haul-out facility. Madeira Marine has their own mechanical staff.</p> <p>If you are hauling out at Liaison Marine, make arrangements with a mobile mechanic or Garden Bay Marine Services for repairs.</p>	<p><b>Garden Bay Marine Services</b> 604-883-2722</p> <p><b>Mike Martens-Mobile Mechanic</b> 604-399-8627</p>
